Dear Joseph,

**In the matter of Tahmoor Coal Pty Ltd (Administrators Appointed) ACN 076 663 968 (Tahmoor)  
Proceeding No. 2025/00300503 (Proceedings)**

1. We refer to the Proceedings last before his Honour, Justice Black on 10 February 2026, the order made by Justice Black on 10 February 2026, the ex tempore judgment of Justice Black dated 9 February 2026 (and revised on 10 February 2026), and our telephone conference with you on 12 February 2026.
2. As you are aware, on 3 November 2025, Rashnyl Prasad, Sean Wengel and I of William Buck (**Administrators** or **Deed Administrators**) were appointed Joint and Several Administrators of Liberty Primary Metals Australia Pty Ltd (Subject to Deed of Company Arrangement) ACN 631 112 573 (**LPMA**) pursuant to section 436A of the *Corporations Act 2001* (Cth) (**Act**).
3. LPMA is currently subject to a Deed of Company Arrangement (**DOCA**) approved by its creditors on 8 December 2025 and executed on 30 December 2025. Pursuant to the DOCA, the Deed Administrators have been carrying out a structured market and sale testing process in respect of LPMA's shareholding in Tahmoor (**Sale Campaign**).
4. Following your appointment as voluntary administrators of Tahmoor late on the evening of 9 February 2026 (**Tahmoor Administrators**), we consider it necessary to engage with you on matters regarding the Sale Campaign, in order to ensure that it continues towards its intended aim of finding a buyer and maximising the sale price for the benefit of all stakeholders, including Tahmoor's creditors.
5. In aid of that objective, and as discussed in our telephone conference earlier today, the purpose of this letter is to set out the following matters:
  - a. the rationale for the Sale Campaign;
  - b. the level and nature of market engagement to date; and
  - c. the current stage of the process, being Phase 1 of a two-stage campaign.

### **Background to the DOCA and Rationale for the Sale Campaign**

6. At the time of the Deed Administrators' appointment, LPMA's primary operating asset was its 100% shareholding in Tahmoor, which owns and operates the Tahmoor Coking Coal Mine in New South Wales (**the Mine**).
7. In the LPMA Administrators' Report to Creditors issued pursuant to Insolvency Practice Rules (**IPR**) 75-225 and section 439A of the Act, dated 1 December 2025, the LPMA Administrators recommended that creditors of LPMA resolve to enter into a DOCA rather than place LPMA into liquidation.
8. On 8 December 2025, at the second meeting of creditors of LPMA convened pursuant to section 439A of the Act, creditors resolved to approve the DOCA.
9. An element of the DOCA was the implementation of a structured realisation strategy in respect of LPMA's shareholding in Tahmoor. In broad terms, the DOCA contemplated that value in LPMA's principal asset would be tested and realised through an orderly market sale process.
10. In forming our view that a structured market testing process was appropriate, the Deed Administrators had regard to, among other matters:
  - a. the scale and nature of the Mine as a complex, capital-intensive resource asset;
  - b. the sensitivity of enterprise value to operational disruption and distressed sale conditions;
  - c. the risk that an immediate liquidation of Tahmoor would materially constrain transaction structures to sub-value, asset-level realisations only; and
  - d. the potential for value to be preserved and maximised through a coordinated, shareholder-level sale process conducted in an orderly environment.
11. The Deed Administrators formed the view that a shareholder-level transaction was the most appropriate mechanism available to LPMA to realise value in its investment in Tahmoor. A sale of shares would, in principle, preserve corporate continuity at the subsidiary level and provide a purchaser with the ability to recapitalise and restart operations, subject to regulatory and creditor approval processes (where necessary).
12. The DOCA also established a framework under which any equity realised from a sale of Tahmoor would be applied for the benefit of LPMA's creditors, after satisfaction of Tahmoor's liabilities in accordance with applicable law.

### **Engagement of Advisers and Capability to Conduct the Sale Campaign**

13. The Deed Administrators are partners of William Buck, a full-service accounting and advisory firm operating throughout Australia and New Zealand, which includes a dedicated corporate finance and transactions division with experience in mergers and acquisitions, divestments, due diligence processes and complex transaction execution across various sectors of the economy, working on domestic and international mandates (**WB Corporate Finance**).

14. The Deed Administrators determined that the Sale Campaign would be supported by WB Corporate Finance, led by Mark Calvetti (**Mr Calvetti**) who has substantial experience in resources, energy and infrastructure transactions. Mr. Calvetti's involvement is known to various stakeholders and they support his current and ongoing involvement.
15. Prior to joining William Buck, Mr Calvetti held the position of Project Director – Energy Reform at the New South Wales Treasury. In that role, he was responsible for overseeing aspects of the privatisation of New South Wales (**NSW**) state-owned electricity and resources assets, including transactions conducted through trade sale and potential initial public offering pathways. In that capacity, Mr Calvetti managed a multidisciplinary team of approximately 25 energy and resources specialists, reported to the NSW Treasurer and Secretary of the Treasury, and worked with a range of stakeholders including government departments, major financial advisers, industry participants and legal advisers.
16. The Deed Administrators formed the view that the combination of restructuring expertise, corporate finance, M&A and transaction execution capability within the firm was appropriate to design and implement a structured market testing and sale process that was credible and disciplined, and ultimately led to maximum value being realised.
17. The Deed Administrators retain ultimate control over the process at all times. The Corporate Finance team's role is to assist with the preparation of marketing materials, coordination of interested parties, management of the data room, and administration of the staged EOI process, subject to oversight and direction from the Deed Administrators, engaging in negotiations, including as to pricing, and overseeing corporate transaction structuring options.

#### **Oaktree Capital Loan Note Subscription Agreement**

18. On 26 September 2025, Luminith Investments Pte. Ltd (**Oaktree Capital**) and Tahmoor entered into a Loan Note Subscription Agreement (**Oaktree Capital LNSA**), by which, amongst other things, Oaktree Capital agreed to provide Tahmoor with funding in three tranches, being:
  - a. Tranche 1: USD\$10,000,000;
  - b. Tranche 2: USD\$40,000,000; and
  - c. Tranche 3: USD\$45,000,000.
19. The Oaktree Capital LNSA and relevant supporting documentation provide for a complex security structure (Oaktree Capital Security), including but not limited to, Oaktree Capital holding:
  - a. A specific security interest over the shares held by LPMA in Tahmoor and the related party loan account owing from Tahmoor to LPMA;
  - b. An AIIPAAP interest over Tahmoor;
  - c. Fixed security interests over intercompany receivables owing to or from LPMA or Tahmoor to a number of related entities, including Clydesdale;
  - d. The benefit of an assignment or subordination of Clydesdale's debt owing from Tahmoor and LPMA;

- e. The benefit of subordination of any related party debts owing by Tahmoor and LPMA to related party creditors; and
  - f. An assignment of the Clydesdale security interests.
20. There are a number of conditions precedent to the Oaktree Capital LNSA, the majority of which are commercially sensitive. However, one of the conditions precedent to receiving Tranche 3 funding requires LPMA to set up a new company to hold Tahmoor's shares. This is provided for in the DOCA proposal approved by creditors at LPMA's Second Meeting.

### **Engagement with Oaktree Capital**

21. The Deed Administrators have held discussions with representatives of Oaktree Capital, as Tahmoor's senior lender, regarding, amongst other things, the structure and proposed timing of the EOI process.
22. During those discussions, the Deed Administrators provided Oaktree Capital with information regarding the design of the process, including the Process Letter, indicative timetable and the role of WB Corporate Finance supporting the campaign. The Deed Administrators have informed Oaktree Capital that the process is staged and that progression beyond Phase 1 will be contingent upon the receipt of credible non-binding indicative offers supported by appropriate funding capability.
23. The Deed Administrators have also made clear that any proposal advanced must be capable of completion and must appropriately address the position of secured creditors, including Oaktree Capital. The Deed Administrators have continued to engage with Oaktree Capital as the process has progressed and have sought to ensure that Oaktree Capital is kept abreast of the Sale Campaign.
24. During our engagement with Oaktree Capital, its representatives have raised the possibility that an external investment bank be appointed by Oaktree Capital to advise or support the Deed Administrators with the Sale Campaign. The Deed Administrators acknowledged that correspondence and are supportive of such an appointment occurring to supplement the expertise brought to fore by Mr. Calvetti and his team.

### **Investment Committee Charter**

25. In the course of progressing the Sale Campaign, an Investment Committee Charter (**Charter**) was entered into between the Deed Administrators and management of Tahmoor. The Charter established a framework for the formation of an Investment Committee intended to facilitate structured engagement and information sharing between the Deed Administrators and Tahmoor management in relation to the Sale Campaign.
26. The Charter addressed matters including committee composition, meeting protocols and general governance arrangements for discussion of the sale process. It was not expressed to transfer decision-making authority from the Deed Administrators, nor to limit or fetter our statutory duties and powers under the Act or the DOCA.
27. The role of the Investment Committee was consultative in nature. Ultimate responsibility for determining whether and on what terms to pursue a transaction involving LPMA's shares in Tahmoor remained with the Deed Administrators.

28. Following your appointment, control of Tahmoor's affairs vests in you (until such time as that position might change). In those circumstances, it is likely that the Charter is no longer operative in its prior form and will need to be amended to include you. We are supportive of those steps being taken quickly and welcome your agreement.

### **Structure of the EOI process**

29. The EOI process formally commenced on 22 January 2026 with the release of a public advertisement in the Australian Financial Review (**AFR**) and direct engagement with industry participants who had previously expressed interest. Advertisements were also placed internationally via LinkedIn and on the online Australia Mining Monthly Magazine platform.
30. Interested parties were required to indicate their interest in participating in the process via email. Upon doing so, they were issued with a Process Letter setting out, among other matters:
- a. the transaction structure being pursued, being a potential sale of LPMA's shares in Tahmoor;
  - b. the staged nature of the process including an indicative timetable;
  - c. expectations regarding conduct, confidentiality and communication; and
  - d. the requirement for funding credibility and capacity to support a restart of the Mine.
31. Interested parties were required to provide their legal entity details, including full legal name, ACN (if applicable) and registered address, to enable a confidentiality agreement to be prepared. Upon receipt of those details, a confidentiality agreement was issued. Interested parties were permitted to execute the agreement in the form provided or propose amendments for consideration. Access to process information was only granted upon full execution of the confidentiality agreement.
32. Phase 1 of the process commenced on 22 January 2026 and involved indications of interest, issuing of process letters, execution of confidentiality agreements and the provision of access to a virtual data room containing a limited information set. The purpose of Phase 1 was to allow interested parties to assess the opportunity at a high level and to submit non-binding indicative offers (**NBIO**).
33. Phase 1 was structured to run through February 2026 and into early March 2026, at which point NBIOs were expected to be received and assessed. Parties submitting NBIOs assessed as credible and capable of completion were intended to be shortlisted to progress to Phase 2.
34. Phase 2 was designed to involve access to a more comprehensive data room, structured management engagement and, where appropriate, site visits. Following completion of Phase 2 diligence, shortlisted parties would be invited to submit binding offers, anticipated in early April 2026.

### **Steps Taken and Progress to Date**

35. Since commencement of the EOI process on 22 January 2026, the Deed Administrators and WB Corporate Finance have undertaken ongoing engagement with industry participants, financial investors and advisers in connection with the proposed sale of LPMA's shareholding in Tahmoor.
36. By close of the EOI window at 5PM (AEDT) on 11 February 2026, a total of 24 parties expressed potential interest in the opportunity.

37. Of those parties, ten (10) have fully executed confidentiality agreements and have been granted access to the Phase 1 virtual data room and are currently undertaking their assessments. The Phase 1 virtual data room has been prepared by us and designed to enable the participants to conduct preliminary diligence and prepare non-binding indicative offers.
38. The parties who have executed confidentiality agreements comprise a mix of strategic operators, industry participants and financial investors with experience in coal, mining, energy and related sectors, these include:
- a. entities involved in the mining, marketing and export of metallurgical coal and related steelmaking raw materials;
  - b. mining and mining services businesses operating in Australia;
  - c. international industrial and resources groups with exposure to coal and energy assets;
  - d. private investment groups; and
  - e. advisers acting for clients with sector-specific experience.
39. In addition to those parties who have executed confidentiality agreements, a further group of parties has engaged with the process and has either been issued with confidentiality agreements or is in the process of finalising participation arrangements.
40. As at the date of this memorandum:
- a. the process remains at the Phase 1 stage, with non-binding indicative offers anticipated by 27 February 2026;
  - b. we have not yet received any binding offers; and
  - c. Phase 2 of the process has not commenced.
41. The Deed Administrators have continued to emphasise to interested parties that any proposal must be:
- a. structured as a shareholder-level transaction;
  - b. supported by demonstrable funding certainty for the proposed acquisition; and
  - c. capable of supporting the recommencement of operations at the Mine through adequate working capital and restart funding as soon as practicable.
42. In the Deed Administrators' view, the level and diversity of interest received to date indicates that our process and market engagement has generated genuine engagement from a range of credible participants with the financial capacity to enter into a change of control transaction and recommencement operations.

**Next Steps**

43. Given the relationship between LPMA and Tahmoor as is wholly own subsidiary, we will need to work together to ensure that the Sale Campaign can proceed, in particular to maintain the level of positive engagement and genuine interest in the process and to ensure that Tahmoor's value is preserved by a robust and stable sale process.
44. We consider that we will need to discuss and agree on a path forward together, including on the following matters:
- a. whether the Sale Campaign should be modified to align with any restructuring pathway at the Tahmoor level;
  - b. whether the nature of the transaction being pursued remains a sale of shares in Tahmoor, or whether an alternative structure (including an asset-level transaction) is to be considered and on what basis that is in the interests of stakeholders and the associated complications (if any);
  - c. the appropriate communications with interested parties; and
  - d. the impact of recent developments on the indicative timetable for the Sale Campaign.
45. We reiterate, it is in the best interests of *all* stakeholders, including Tahmoor's creditors, and the creditors we serve at LPMA level, for the Sale Campaign to proceed as originally planned or slightly augmented following our anticipated discussions. We appreciate you also hold that view, as was expressed in your evidence to the court. The Sale Campaign has already seen some preliminary success, having attracted the participation of 24 interested parties. Continuing that process will allow us to preserve Tahmoor's market value, and to ultimately realise it at optimum levels, for the benefit of LPMA's and Tahmoor's creditors.
46. We look forward to receiving your imminent confirmation of your support of the Sale Campaign and your thoughts generally on the matters raised above. We would be pleased to, and are committed to, engaging with you further, including by sharing appropriate information (where possible), after an agreed path forward is resolved and the objects of that path are settled, bearing in mind the need to maintain the integrity of the process we have underway and the interests of the creditors we serve.
47. If a further telephone conference may be of assistance, please let us know and we will make ourselves available, as best as we can. We otherwise await your response and appreciate you have various matters to consider in light of Justice Black's orders.

Yours faithfully

  - (ii) covenants not to make any Claim or seek to recover any shortfall against the Administrators personally, including by bringing proceedings against the Administrators.

Dear Mr Dobson

**In the matter of Tahmoor Coal Pty Ltd – NSWSC proceeding no. 2025/00300503**

1. We confirm that we act for Coal Mines Insurance Pty Ltd (**CMI**), the plaintiff in Supreme Court of NSW proceeding no. 2025/00300503 (**Proceeding**).
2. We understand that you act for Joseph Hayes and Christopher Johnson, joint and several voluntary administrators of Tahmoor Coal Pty Ltd (administrators appointed) (**Tahmoor**), the defendant in the Proceeding.

**CMI's general concerns regarding the administration of Tahmoor**

3. CMI has serious concerns regarding the administration of Tahmoor, including that:
  - (a) your clients may not be adequately independent from Tahmoor and its related entities, particularly in light of the matters to which Mr Hayes deposed at paragraph [9] of his affidavit sworn on 10 February 2026;
  - (b) your clients, even if adequately independent, may not have appropriate relevant experience, including experience in the administration of entities in the coal mining industry and experience in the sale of collieries;
  - (c) over the course of the administration, Tahmoor will incur very significant further debts, which will serve to dilute CMI's credit position (notwithstanding the further debts that will continue to accrue to CMI over the same period).
4. We are instructed to request that, to the extent possible, your clients explain how they say they are adequately independent and appropriately experienced, and why they say that the interests of existing unsecured creditors of Tahmoor are likely to be advanced by Tahmoor incurring significant further debts.

### Potentially voidable transactions

5. Further to the concerns outlined above, CMI is concerned that the continuation of the administration is not in the best interests of creditors, as CMI is aware of significant potentially voidable transactions, which may be investigated and unwound by a liquidator.
6. In this regard, we note that on 10 October 2026, the Australian newspaper published an article titled, "Sanjeev Gupta raided Tahmoor colliery for \$427m ...", in which it was stated that Mr Gupta, a director of Tahmoor, "ripped \$427m from the books of his Tahmoor colliery before the NSW mine was shut down", apparently by way of "a dividend" to Tahmoor's parent, Liberty Primary Metals Australia Pty Ltd (**LPMA**).
7. The former voluntary administrators of LPMA, in their report to creditors dated 1 December 2025, gave some commentary on the dividend transaction, noting that it relates to various associated related-party loan transactions. Notwithstanding that commentary, CMI remains seriously concerned that the dividend transaction and/or the associated related-party loan transactions are voidable transactions.
8. Further, we note that Global Loan Agency Services Australia Nominees Pty Limited (**GLAS**) has registered two security interests granted by Tahmoor, respectively dated 29 July 2025 and 7 October 2025, in each case having a collateral class description of "all present and after-acquired property – with exceptions".
9. We ask that your clients provide a comprehensive explanation of the dividend transaction, the associated related-party loan transactions and the transactions giving rise to the security interests registered by GLAS, and state what steps (if any) they intend to take in relation to the investigation of those transactions during their administration.

### Robustness of funding arrangements

10. We refer to the email from his Honour's Associate of this morning, stating:

*... His Honour will seek the parties' assistance when the matter is returnable next Wednesday, 18 February, as to any evidence as to the robustness of the funding arrangements.*
11. We refer also to the Funding Agreement dated 10 February 2026 that appears in Exhibit JH-1 at page 3 (**Funding Agreement**).
12. In respect of the Funding Agreement, we note that:
  - (a) the Lender is Clydesdale Engineering Limited, a company incorporated in England that does not appear to have any trading presence in Australia;
  - (b) the Lender is a related entity of Tahmoor and therefore not independent; and
  - (c) clause 9.1(2) provides that the Lender may cancel its obligation to provide further Loans with 5 Business Days' notice.
13. We are instructed to request that your clients explain how, and on the basis of what information and documents, they are satisfied that the Lender in fact has the capacity to provide the funding the subject of the Funding Agreement (**Funding**).

**From Hicksons | Hunt & Hunt to**

12 February 2026

14. Relatedly, we enclose, by way of service, a notice to produce requiring production of any documents in your client's possession and relied upon by your client in reaching satisfaction that the Lender in fact has the capacity to provide the Funding.
15. To the extent that the documents sought in the notice to produce are contained in your client's evidence, required to be filed and served by 8:00 am on Tuesday, 17 February 2026, the notice to produce will not be pressed.

Yours faithfully
